Dear Alison,

Study title: **AML 17: A Programme of Development for the Treatment of Younger Patients with Acute Myeloid Leukaemia and High Risk Myelodysplastic Syndrome**
REC reference: **08/MRE09/29**

Thank you for your letter of 5 December 2011 to the Committee clarifying the correct version numbering of the currently approved versions of the protocol and PIS 1 and 3.

The Committee does not consider this to be a "substantial amendment" as defined in the Standard Operating Procedures for Research Ethics Committees. The amendment does not therefore require an ethical opinion from the Committee and may be implemented immediately, provided that it does not affect the approval for the research given by the R&D office for the relevant NHS care organisation.
