Dear Dr Scott

Re 08/MRE09/29 AML 17: A Programme of Development for the Treatment of Younger Patients with Acute Myeloid Leukaemia and High Risk Myelodysplastic Syndrome

In October 2011 I submitted a substantial amendment application for an updated GP letter 1 and also stated that there were a number of typos in the protocol and PIS 1 and PIS 3 this was duly approved by the committee at their November meeting. Unfortunately I up-versioned the protocol to version 8 dated October 2011 and the PIS 1 and 3 when I should have increased the number by a part integer rather than a whole one as the typos are not substantial amendments. Could I therefore clarify that the current version of the protocol for the trial is Version 7.1 dated October 2011 and the PIS 1 is version 6.2 dated October 2011 and PIS 3 version 5.1 dated October 2011

Yours Sincerely

Alison Jenkins

AML 17 Trial Manager
